MEMORANDUM FOR THE CHAIRMAN, SENIOR INTERAGENCY GROUP
(INTELLIGENCE)

SUBJECT: Organizational Study in the Countermeasures
Area

Although work has been progressing steadily on the IG/CM organizational study, it has become clear that due to its length and complexity, the study will not be completed by the end of May.

As you recognize, we are covering some twenty separate programs from an organizational standpoint. Coordination will be required of many separate offices and organizations within the executive branch. At this stage, we anticipate at least two formal rounds of coordination will be required to produce a finished product.

We now are looking toward the end of June as a target date for completion of this study. Even this is an optimistic forecast, but I intend to hold to this course if at all possible.
